

Project Status report

Name: Kawthar Alkhateeb

Community (UN SD goal): SDGs 2, 12, and 13

MVP # MVP 2

Sprint cycle dates: 16-11-2023 to 08-12-2023

Project Name	Scraps2Dishes
Blurb	Scraps2Dishes is a mobile app that will allow users to use their food waste and leftovers to make delicious recipes. The SDGs the app is trying to address are SDG2: zero hunger, I think an app like Scraps2Dishes may contribute to addressing hunger and food security issues by reducing food waste and encouraging efficient use of available food resources. SDG 12 Responsible Consumption and Production: Scraps2Dishes promotes responsible consumption by encouraging users to use what they have and reduce food waste. SDG 13 Climate Action: Reducing food waste helps mitigate greenhouse gas emissions associated with food production and disposal, contributing to climate change mitigation efforts.
For Week Ending	08-12-2023
Project Status	Green
Status Description	* I feel I'm in the green because I have been able to complete what I have aimed for for this term.

Activities—During the past sprint cycle

1. Added categories to the cook book and users can categorize the recipes they add.
2. Environmental impact report implementation, users can now view an environmental impact report of the recipe they choose to make/use.
3. Updated the user interface where possible to make more useful and enjoyable.
4. Updated the backend.
5. Updated the project's GitHub.

Project Issues

No issues!

Project Changes

No Changes!

1. In talking about future work (additions)

- Enhancing the research function, like allowing user to enter multiple ingredients which can be done using AI.
- User profile
 - For viewing their added recipes.
 - Having a weekly impact report.
- Integrating more group-focused features, such as chatting functionality!

Reflection

Do you feel "on track"?

Yes, I feel that I'm on track for this project.

What progress do you particularly feel good (great) about?

I feel good that I was able to connect my app to an API to use for generating an environmental impact report for the recipes the user choose.

What barriers (if any) do you feel is/are a current impediment to success?

None!

What help (if any) do you require to move positively forward?

None!

What questions or concerns do you have (if any)?

None!
